Mission of the University of New Mexico

- The University will engage students, faculty, and staff in its comprehensive educational, research, and service programs.
- UNM will provide students the values, habits of mind, knowledge, and skills that they need to be enlightened citizens, to contribute to the state and national economies, and to lead satisfying lives.
- Faculty, staff, and students create, apply, and disseminate new knowledge and creative works; they provide services that enhance New Mexicans' quality of life and promote economic development; and they advance our understanding of the world, its peoples, and cultures.
- Building on its educational, research, and creative resources, the University provides services directly to the City and State, including health care, social services, policy studies, commercialization of inventions, and cultural events.

Mission of the University of California

- **The University's fundamental missions are teaching, research and public service.**
- We teach — educating students at all levels, from undergraduate to the most advanced graduate level. Undergraduate programs are available to all eligible California high-school graduates and community college transfer students who wish to attend the University of California.
- Instructional programs at the undergraduate level transmit knowledge and skills to students. At the graduate level, students experience with their instructors the processes of developing and testing new hypotheses and fresh interpretations of knowledge. Education for professional careers, grounded in understanding of relevant sciences, literature and research methods, provides individuals with the tools to continue intellectual development over a lifetime and to contribute to the needs of a changing society.
- Through our academic programs, UC helps create an educated workforce that keeps the California economy competitive. And, through University Extension, with a half-million enrollments annually, UC provides continuing education for Californians to improve their job skills and enhance the quality of their lives.

Information from Academic Program Review 2016

Over the period since our last external review (2008), we have gradually increased online offerings from zero sections to 12 sections in spring 2017, with a greater focus on the lower levels, where enrollment is higher. In fall 2017, we are initiating eight-week intensive hybrid graduate courses, involving three faculty members. This is an area in which we have a growth opportunity as we move forward, evaluating the effectiveness of the online sections.

We have converted most Evening and Weekend Degree Program (EWDP) courses to Online instruction
